

Flower Girl Measurements & Sizing Information

After you have completed your child's measurements, refer to the size chart below and decide which size category she best falls into. Please remember, our dresses are in standard sizes. Keep in mind that your child's usual size may not be the same size she normally wears when choosing a dress at AlibMaids.com. If her measurements fall between two sizes, choose the larger size. It is always easier to take in than let out a garment when doing alterations. Please do not add inches for ease. Our size charts reflect body measurements, not garment measurements.

Please keep in mind, we do not offer alteration services. Our dresses are made-to-order using standard industry sizes. They are not custom-made to your specific size. However, if you need alterations, they must be adjusted after you receive your dress by a seamstress or tailor of your choice. We are not responsible for any alterations made after you receive the garment from us. If you have any questions, please e-mail us at inquiries@alibmaids.com and we'll be happy to assist you in any way we can.
